

SNOW AND ICE REMOVAL

Public Works crews plow and salt Town streets and parking lots to clear snow and ice.

We are anticipating a major snow storm with blizzard-like conditions over the weekend.

Residents Are Required to:

- *Whenever possible, move parked cars off the street so that snow plows can remove the snow from the street from curb to curb.*
- *If off-street parking is not available, park on the even side of the street.*
- *Be patient during any snow emergency as crews work around the clock to clear the streets.*
- *Clear the sidewalks in front of residence and refrain from depositing snow back on to the roadway (this can potentially cause an accident).*

The DPW's goals are to plow, salt and clear every street in town. However there will be times (during the height of the upcoming storm) when our priorities will be to assure that the primary streets that are used by mass transit and vendors are passable to assure the safe transport of people and goods throughout the town.

Primary streets include Queensbury Road, Riverdale Road, Lafayette Avenue, Taylor Road, 48th and 49th Avenues, 54th Avenue, and Jefferson Street, as well as bridges and hilly areas. The next priorities are secondary streets that intersect with primary streets, followed by residential streets.

To report emergency situations that are not covered by the plan outlined above, residents should call 1-240-237-5104.
