

**SPECIAL ANNOUNCEMENT
CONSTRUCTION UPDATE NOTICE**
January 2, 2015

STORM WATER PIPE ALTERNATE ROUTE APPROVED

New Route Will Not Enter the Town Of University Park

Since the October 20, 2014 Town of University Park Council meeting, the Riverdale Park Station development team has been working in coordination with the County Executive's office and the US Army to identify and secure the necessary approvals for an alternate route for the site's storm water outfall pipe to Wells Run that does not enter the Town of University Park.

The approved alternate pathway for the storm water outfall piping will cross the Army Reserve property and connect to Wells Run downstream of the US Route 1 box culvert.

Construction is anticipated to commence on January 5, 2015.
