

CONSTRUCTION UPDATE NOTICE

Weeks of: March 16, 2015 and March 23, 2015

What to Expect On-Site the Next Two Weeks:

During the next two weeks of work, the General Contractor, L.F. Jennings, will continue construction of the Whole Foods Market and continue with site utility work.

They will also continue removal and haul-off of excess soil and rubble.
The installation of the retaining wall along the Northern property line will continue.

Lane Closures:

As the work of installing the new storm line under Route 1 is being performed, there will be a work area established in Route 1 that will close off three lanes during non-rush hours and on weekends through March (weather permitting). The three lanes of Route 1 (two northbound lanes and the center turn lane) will be closed periodically between the hours of 9am to 3pm to allow for the installation of the storm water pipe. Traffic will be diverted to a single southbound lane and a single northbound lane utilizes the lanes on the far west side of Route 1. The work plan has been approved by the State and all safety measures required by the State will be implemented. Conflicts with existing utilities located in Route 1 have temporarily stopped the progress of this storm drain work while a revised plan is approved.

Future Plans:

- One to two month look-ahead –
 - Continue all of the above work but start an additional building to provide new retail to the area.
 - Start utility infrastructure throughout the east side of the site
- Two to six month look-ahead –
 - Start additional retail buildings
 - Start installation of a traffic signal at Van Buren St. & Rt.1
 - Advance actual construction of the CSX Crossing
 - Advance construction of the Hiker/Biker Trail
- Six to twelve month look-ahead –
 - Start interior fit-out of Whole Foods
 - Finish widening of Route 1
 - Opening of Gateway Park

Work Hours:

Work activity will be taking place Monday – Sunday between the hours of 7 a.m. and 7 p.m. However, work on the State highway will be restricted to 9:00am to 3:00pm.

Contact Information:

For any construction related concerns, please contact Robert Lockhart of Capital Construction Consultants at 202-669-7157 or email at rlockhart@ccci-dc.com.
