

# **US 1 (Baltimore Avenue) from College Avenue to MD 193 (University Boulevard)**

## **ELECTRICITY INFRASTRUCTURE RELOCATION WORK NOTICE**

Beginning this March, utility crews will be working along US 1 within the project limits specified above performing electricity infrastructure work and will intermittently close traffic lanes during the following weekday hours:

- **Northbound: 7 a.m. to 3 p.m.**
- **Southbound 10 a.m. to 6 p.m.**

Drivers should add extra commute time and use alternate routes during this work. The work may require temporary work zone sidewalk closures. Pedestrians will be directed via signage to the safest crossing in the work zone—including those on the opposite side of the road. Additional work hours and lane closures may be necessary to complete all phases of work and keep the project on schedule. Progress permitting, this electricity infrastructure relocation work should be complete by early fall. Equipment used for this work may be disruptive.

For more information about this US 1 electricity infrastructure relocation work, please contact Mr. John Gover, Maryland Department of Transportation State Highway Administration (MDOT SHA) District 3 Area Construction Engineer at 301-513-7336 or [wgover@sha.state.md.us](mailto:wgover@sha.state.md.us) .
